

Whether in a Glass, Bowl or Plate – Low-fat Dairy Makes Mealtime Complete.

DID YOU KNOW?

- Flavored milk contains the same nine essential nutrients as white milk, including calcium, vitamin D and protein for strong bones
- Milk, cheese and yogurt supply 3 out of the 4 vitamins and minerals that children, teens and adults are most likely to miss out on—potassium, calcium and vitamin D
- Dairy foods are good for more than just strong bones. MyPlate recommends 3 servings* of low-fat or fat-free dairy every day to help lower the risk of high blood pressure, heart disease and diabetes**
- Low-fat and fat-free milk, cheese and yogurt are delicious and nutrient-rich, offering more nutrition in every bite

Does **YOUR** plate look like *MyPlate*? Try these healthy meal ideas that include dairy. No matter how you choose to include dairy foods in your meals, they provide the great taste you want with the good health you need. Enjoy 3 servings every day!
